

Common Name	Botanical Name	Mature Size	Spacing	Aspect	Coastal	Frost	Available	Site Note
Screening & hedging								
1.3m Lilly Pillys	<i>Syzygium australe</i>	4-5m H x 2-3m W	0.6-1m	Full sun to part shade	High	Light	1.3m	Bulk screening line. Minimum order 5 plants. The cheapest way to get a dense green screen in the ground.
Blueberry Ash	<i>Elaeocarpus reticulatus</i>	8-15m H x 3-5m W	1.5-2m	Full sun to part shade	Moderate	Light	1.7m	Narrow upright habit suits tight side setbacks. Fringed bell flowers then blue berries.
Green Spartan Juniper	<i>Juniperus chinensis 'Spartan'</i>	4-6m H x 1-1.5m W	0.8-1m	Full sun	High	Tolerant	1.7m	Narrow columnar form. The specification when the screen has to be formal and the bed is under a metre wide.
Lilly Pilly Resilience	<i>Syzygium australe 'Resilience'</i>	4-5m H x 2-3m W	0.6-1m	Full sun to part shade	High	Light	1.4m, 1.7m, 2.1m	Psyllid-resistant cultivar selected by the farm. Trims to any height from 1.5m up. The default screening specification for SE QLD.
Weeping Lilly Pilly	<i>Waterhousea floribunda</i>	8-12m H x 5-8m W	1-1.5m	Full sun to part shade	Moderate	Light	1.8m	Grows large if left alone. Best specified for tall screens above 3m, or trimmed twice a year to hold height.
Eumundi Quandong	<i>Elaeocarpus eumundi</i>	8-12m H x 4-5m W	1.5-2m	Full sun to part shade	Moderate	Light	45 L, 100 L	Bronze new growth against glossy dark foliage. One of the better formal tall screens for a high-end residential job.
Magnolia Little Gem	<i>Magnolia grandiflora 'Little Gem'</i>	4-6m H x 2.5-3m W	1.5-2m	Full sun to part shade	Moderate	Tolerant	1.8m, 2.3m	Compact magnolia. Works as a formal screen at 1.5m centres or as a standalone feature.
Mock Orange	<i>Murraya paniculata</i>	2-4m H x 2-3m W	0.6-1m	Full sun to part shade	Moderate	Light	0.7m	Classic low to medium hedge. Fragrant white flowers through the warm months.
Street & shade								
Crow's Ash	<i>Flindersia australis</i>	15-25m H x 8-12m W	8-10m	Full sun	Moderate	Tolerant	1.2m	Queensland rainforest hardwood used widely as a street and park tree. Needs room at maturity.
Paperbark	<i>Melaleuca quinquenervia</i>	8-15m H x 5-8m W	2-3m	Full sun	High	Light	0.6m	The specification for a wet or poorly drained site. Handles standing water that kills most trees.
Tuckeroo	<i>Cupaniopsis anacardioides</i>	8-10m H x 5-6m W	4-6m	Full sun	Very high	Light	1.7m	Handles direct salt exposure. Compact non-invasive root system suits verges and courtyards near paving.
Tulipwood	<i>Harpullia pendula</i>	8-12m H x 5-6m W	5-7m	Full sun to part shade	Moderate	Light	1.0m, 2.0m	Stays under most powerline clearances and keeps a tidy root system. A strong verge and small-garden shade tree.
White Bottlebrush	<i>Callistemon salignus</i>	6-10m H x 4-5m W	1.5-2m	Full sun	High	Tolerant	0.5m	Takes wet ground and coastal wind. Plants at 1.5m centres for an informal screen or spaced as a street tree.
Hard Quandong	<i>Elaeocarpus obovatus</i>	10-18m H x 5-8m W	6-8m	Full sun to part shade	Moderate	Light	0.9m	Dense shade canopy. Blue fruit attracts native birds. Correct species is <i>Elaeocarpus obovatus</i> .
Luscious Water Gum	<i>Tristaniopsis laurina 'LUSCIOUS'</i>	6-10m H x 4-5m W	4-6m	Full sun to part shade	Moderate	Light	45 L, 100 L	Large glossy leaves and a controlled canopy. Specified heavily for streetscapes and car park islands.
Feature & specimen								

Common Name	Botanical Name	Mature Size	Spacing	Aspect	Coastal	Frost	Available	Site Note
Illawarra Flame Tree	<i>Brachychiton acerifolius</i>	10-20m H x 6-8m W	8-10m	Full sun	Moderate	Light	0.6m	Scarlet flowering on bare wood in early summer. Flowers reliably once established and settled.
Ivory Curl	<i>Buckinghamia celsissima</i>	7-10m H x 4-5m W	5-6m	Full sun to part shade	Moderate	Light	1.0m, 1.7m	Cream flower spikes through summer. Sized for a courtyard or a small front garden feature.
Jacaranda	<i>Jacaranda mimosifolia</i>	10-15m H x 8-12m W	8-12m	Full sun	Moderate	Light	1.8m	Flower and leaf drop is heavy in spring. Keep clear of pools and light-coloured paving on a maintenance-sensitive job.
Lemon Scented Myrtle	<i>Backhousia citriodora</i>	4-8m H x 3-4m W	2-3m	Full sun to part shade	Moderate	Light	1.4m, 1.7m	Aromatic foliage used as bush food. Compact enough for a courtyard and takes a light trim.
Manzanillo Olive	<i>Olea europaea 'Manzanillo'</i>	4-6m H x 4-5m W	4-5m	Full sun	High	Tolerant	1.4m	Fruiting variety. Fruit drop stains light paving, so place it off hard surfaces on a residential job.
Natchez Crepe Myrtle	<i>Lagerstroemia 'Natchez'</i>	6-8m H x 5-6m W	5-6m	Full sun	Moderate	Tolerant	100 L, 200 L	White summer flowers over cinnamon bark. Supplied in 100L and 200L for instant impact on a finished job.
Pink Crepe Myrtle	<i>Lagerstroemia indica 'Zuni'</i>	2.5-3m H x 2.5m W	2-2.5m	Full sun	Moderate	Tolerant	1.6m	Zuni is a mildew-resistant dwarf hybrid. Fits under powerlines and in small courtyards where a full crepe myrtle will not.
Queensland Bottle Tree	<i>Brachychiton rupestris</i>	10-15m H x 4-5m W	6-8m	Full sun	Moderate	Tolerant	1.8m, 2.1m	Swollen trunk develops with age. Transplants better than almost any other advanced tree and needs very little water.
Parkland & acreage								
Bunya Pine	<i>Araucaria bidwillii</i>	30-45m H x 10-15m W	12-15m	Full sun	Moderate	Tolerant	1.7m	Drops cones weighing up to 10kg. Never specify over paths, parking, seating or play areas.
Kauri Pine	<i>Agathis robusta</i>	30-40m H x 8-12m W	10-12m	Full sun to part shade	Moderate	Light	1.8m	Straight columnar trunk. An acreage and parkland specimen given the mature size.
Lemon Scented Gum	<i>Corymbia citriodora</i>	20-35m H x 8-12m W	10-12m	Full sun	High	Light	0.6m	Smooth pink to white trunk and aromatic foliage. Avenue and parkland scale, not a suburban backyard.
